PROFILE

Highly motivated Electronics and Communication Engineering student with strong problem-solving and technical skills. Interested in networking, embedded systems, IoT, and software development. Passionate about learning new technologies and contributing effectively to organizational growth through innovation, teamwork, and continuous improvement.

EDUCATION

St. Joseph's College of Engineering	2022 - 2026
B.E. Electronics and Communication Engineering CGPA: 8.68	
John Dewey Matric Hr. Sec. School HSC - 90%	2020 - 2022
The New John Dewey Matric Sec. School SSLC - 85%	2019 - 2020

CERTIFICATIONS

CISCO CERTIFIED — NETWORK BASICS

Credential ID: 4a3692c3-f9dd-4265-9424-7634acdca4e3

Self-Based Courses in MATLAB - MathWorks

5G for Everyone, 5G Introductory-Level Certificate - Qualcomm

5G Deep Dive - TelcoLearn

Introduction to Internet of Things - NPTEL

SKILLS

Technical Skills	C, C++, Python, HTML, CSS, Cisco.
Soft Skills	Problem-Solving Under Pressure, Adaptability, Team Collaboration.
Tools	Matlab, VS Code, Wireshark, Ansys, Cisco Packet Tracer.

COURSES

Basics of C, C++, and Python.	Jul 2022 - Oct 2022
Coderz Academy.	
HTML, CSS, JavaScript.	
Online (Telsco Academy).	

PROJECTS

Tyre Monitoring System for Dumpers. Designed a real-time tyre monitoring system for mining dumpers using Raspberry Pi Pico and IIoT technology. Implemented TKPH assessment, tyre pressure monitoring, wireless data transmission, and mobile app integration for real-time monitoring.

Professional Portfolio. Designed and built a simple Portfolio page using HTML and CSS. Focused on creating a clean layout and intuitive user experience through effective use of form elements and styling techniques. Ensured compatibility across various devices and screen sizes by applying modern front-end design practices

INTERNSHIPS

RF and Microwave For The Characterization of Antenna. - Center of Electronics Skill Development and Consultancy Services

Completed a hands-on internship focused on RF and Microwave engineering, with a specialization in antenna characterization. Gained practical experience in measuring and analyzing antenna parameters such as return loss, gain, radiation pattern, and VSWR using advanced equipment like Vector Network Analyzers (VNA) and anechoic chambers.

LANGUAGES

1. Tamil 2. English 3. Hindi (Beginner)
